

Project Initialization and Planning Phase

Date	15 July 26
Team ID	XXXXXX
Project Name	AI Debt Settlement System
Maximum Marks	3 Marks

Define Problem Statements :

A borrower with multiple loans is trying to manage debt and negotiate a fair settlement but lacks financial insights and personalized guidance. Because of this, they struggle to make informed decisions, resulting in increased financial stress and uncertainty. The AI Debt Settlement System addresses this challenge by providing loan risk prediction, financial health analysis, and AI-powered settlement recommendations.

Problem Statement	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A borrower with multiple loans	Manage my loan repayments and reduce my debt burden	I don't know how financially stressed I am or which loan should be prioritized	I lack proper financial analysis and guidance	Worried and overwhelmed about my financial future
PS-2	A customer facing overdue loan payments	Negotiate a fair loan settlement with the lender	I don't know the appropriate settlement amount or negotiation strategy	I have limited financial knowledge and no expert assistance	Anxious and uncertain during settlement discussions
PS-3	A financial institution employee	Evaluate a customer's repayment capability and recommend suitable settlements	Manually analyzing financial records is time-consuming and inconsistent	Customer data is spread across multiple records and requires careful assessment	Overloaded and less efficient in making decisions
